

ELECTRICAL INSPECTIONS

When a permit is applied for and obtained to do any electrical work in Newtown Township, homeowners, in addition to having to obtain an electrical permit, are responsible for obtaining and paying for their own electrical underwriters when having electrical work done". Below you can find a list of available underwriters. Homeowners can choose whomever they like as long as the underwriter is licensed and insured in the state of Pennsylvania.

Schedule the rough frame and Final O & U inspections with the Township **only after you have passed the electrical inspection** and have the sticker and cut card attached to the main distribution panel. The Township inspector will remove the cut card and save it for Township record of your electrical inspections.

If you have any questions or require any additional information please contact the Newtown Township Building Department at (215) 968-2800 Ext. 243.
