### **GENERAL INSTRUCTIONS**

Any proposed removal of existing trees from a given property requires the submission of one (1) copy of this form along with three (3) copies of a sketch showing the location of all trees of stated size on the premises prior to or at the same time as submission of Application for Building Permit. The applicant should complete Section 1 of this application in its entirety providing enough information to adequately indicate the specific location of the proposed use and removal of trees. The applicant must indicate in Section 2 of this application a descriptive statement indicating the proposed use of the premises, the location and size of all trees on the property, and special conditions peculiar to the indicated uses and clearances of trees. The accompanying sketch should include, but not be limited to, the following: accurate dimensions of property and all required yards and set-backs; existing structures, uses, and zoning on adjacent properties; location, paved width, existing right-of-way and ultimate (Comprehensive Plan) right-of-way of frontage roads, proposed roadways, and driveways; total area of property; location dimensions, ground floor area, and total area of proposed structure(s) and/or use(s); and, existing natural features or constraints such as flood plains, steep slopes, and dimensions of all trees in each stand of trees as well as a clear indication of four (4) feet above grade.

After issuance of a Tree Removal Permit then applicant is qualified to receive review on Application for Building, Frontage Improvement, and Occupancy Permits. No Building, Frontage Improvement, or Occupancy Permits shall be issued until applicant has received Tree Removal Permit approval.
